

Order from our Virtual Drive-Thru!

HOW IT WORKS:

1. Customer downloads the Drive-Thru On Demand App from App Store or Google Play Store.
2. Customer places an order and pays from the App.
3. Restaurant immediately receives the order, then notifies the customer through preset alerts when order is accepted and when order is ready.
4. When the "order is ready" alert is received, the customer drives up to the designated area, taps the "I'm Here" button and the restaurant is alerted to the customer's arrival with customer's name, vehicle make/model, license plate, and order number.
5. A restaurant employee then takes the order out to the waiting customer.

THERE IS NO NEED TO GET OUT, GO IN, OR SIT IN A DRIVE-THRU LINE!

Download today on the App Store and Google Play!
